

Tournament Quality Professional Select Rye/Blue Mixture is a mixture of high quality perennial ryegrass and Kentucky bluegrass well suited for overseeding greens, tees, fairways, and athletic fields and as a permanent stand of turfgrass. The dark green, fine textured mixture offers a turf that can be modified to meet individual and regional requirements. The Tournament Quality Professional Select Rye/Blue Mixture is composed of Applaud, 1G2, Integra Perennial Ryegrasses and Royale' and Mallard Kentucky Bluegrasses.

Characteristics:

- Exhibits excellent high and low temperature stress tolerance throughout the range of adaptation.
- An excellent choice for athletic fields and fairways, as well as being an excellent choice for both greens and tees.
- Displays a dark green color that looks good even when fertilizer levels run low.
- Transitions well in the spring when used as an overseeding for dormant warm season grasses.

Recommended Use:

Golf Courses, Parks, Homes Lawns, Athletic fields, and Overseeding Warm Season Turfgrasses

Climatic Zones:

2, 3, 4, 5, 6, 7, 8, 9, 10 (may not be adaptable to all areas within each climatic zone)

Establishment & Maintenance:

Under ideal conditions, germination begins in 6 days. If overseeding, care must be taken to ensure adequate seed to soil contact. Subject to germination rate, first mowing may begin at 14 days after sowing. *Tournament Quality Professional Select Rye/Blue Mixture* responds to 1/2 lb Nitrogen per application. Repeat applications only as grass shows need due to fading color.

Seeding Rates:

- Permanent Turfgrass, Parks, Athletic Fields & Home Lawns 5 - 10lbs./1000 sq. ft.
(2 – 5 kg/100 sq meters)
- Tees and Aprons (Overseeding) 15 - 25 lbs./1000 sq. ft.
(6 1/2 - 11 kg/100 sq meters)
- Fairways (Overseeding) 250 - 400 lbs./acre
(280 – 448 kg/hectare)
- Athletic Fields 10-20 lbs./1000 sq. ft.
(4 1/2 - 9 kgs/100 sq meters)
